

Abdulrazzaq A. Liasu

Backend Developer | Cybersecurity Associate | DevOps Enthusiast

📍 Ikeja, Lagos, Nigeria 📞 +234 708 504 3569 ✉️ legennd48@gmail.com 🔗 LinkedIn 📁 GitHub

• Professional Summary

Cybersecurity-focused Backend Developer experienced in building secure, scalable APIs and automation pipelines. Proven record of improving system performance, securing applications, and implementing CI/CD workflows. ISC2 Certified in Cybersecurity (CC) and graduate of multiple ALX technical fellowships. Passionate about developing cloud-native, reliable, and resilient backend systems.

• Technical Skills

Backend & API Development

Python · Django · Flask · Node.js · NestJS · TypeScript · REST APIs · GraphQL · JWT · Microservices · Caching · Logging

Databases

PostgreSQL · MySQL · MongoDB · Redis · SQLite · Schema Design · Query Optimization · Backup & Recovery

DevOps & Infrastructure

Linux · Docker · Nginx · AWS · GitHub Actions · CI/CD · Kubernetes · Bash Scripting · Cloud Deployment

Cybersecurity

OWASP · RBAC · SIEM · API Security · Incident Response · System Hardening · Threat Modeling · Secure Architecture

Soft Skills

Mentorship · Technical Writing · Leadership · Team Collaboration · Problem Solving · Strategic Thinking · Communication

• Professional Experience

Freelance Backend Developer

Mar 2023 – Present

[Self-employed \(Remote\)](#)

- Designed and built RESTful APIs and microservices using Flask, Node.js, Django, and NestJS.
- Implemented authentication, caching, and secure endpoints.
- Contributed to backend security and system architecture decisions.

Database Design Lead — GreenZTech Project

Sep 2024 – Nov 2024

[GreenZTech \(Remote\)](#)

- Designed scalable PostgreSQL schema for a blockchain-integrated supply chain platform.
- Integrated schema with Ethereum Smart Contracts for verification and provenance tracking.
- Automated table setup and indexing with scripts.
- Delivered comprehensive technical documentation for backend integration.
- Project under NDA — technical deliverables remain confidential.

Founder & Lead Technician

Sep 2019 – Mar 2023

[LogicBase Tech & Edu Services \(Ekiti, Nigeria\)](#)

- Delivered IT support and system setup services for individuals and organizations.
- Managed a team of 5 technicians, improving service delivery and turnaround time.
- Designed data recovery procedures and internal security policies.
- Conducted digital literacy and networking training sessions.

Head of Marketing & Administration

Sep 2015 – Sep 2019

[Marvel Chess International \(Ekiti, Nigeria\)](#)

- Designed and delivered chess curricula for children and adults.
- Authored a children's chess workbook for structured learning.
- Recruited and managed staff to ensure effective program delivery.
- Led marketing and outreach initiatives that increased student enrollment.

• Awards & Recognitions

Letter of Recognition — Volunteer Peer Reviewer

ALX Africa · 2024

Recognized for exceptional commitment, leadership, and collaboration as a Volunteer Peer Reviewer in the ALX Software Engineering Program.

Outstanding Completion Recognition — Electronic Arts (EA) Virtual Experience Program

Forage · 2024

Completed EA's Software Engineering virtual experience, demonstrating problem-solving and collaborative engineering skills.

• Education & Certifications

ALX ProDev – Advanced Backend Engineering

Aug 2025

ALX

Certificate of Completion

Advanced backend architecture, observability, CI/CD, Docker, and Kubernetes.

Sidmach Technologies – Cybersecurity NextGen Program

May 2025

Sidmach Technologies

Certificate of Achievement

Hands-on training in cloud security, threat detection, and incident response.

ALX Professional Foundations

Apr 2025

ALX

Certificate of Completion

Developed professional readiness, teamwork, and communication for technical careers.

ISC2 Certified in Cybersecurity (CC)

2025

ISC2

Certification Passed (Pending AMF)

Validated global cybersecurity principles, risk management, and network defense.

ALX AiCE – AI Career Essentials

Nov 2024

ALX

Certificate of Completion

Learned ethical AI practices, prompt engineering, and AI-powered productivity tools.

ALX Africa – Software Engineering (Full Stack)

Jul 2024

ALX Africa

Certificate of Completion

Full-stack software engineering fellowship covering backend systems and teamwork.

Electronic Arts Virtual Experience Program — Forage

2024

Electronic Arts

Certificate of Completion

Gained insight into EA's software engineering workflows and project simulation practices.

• Beyond Code

▶ Chess coach nurturing strategic thinking in learners.

▶ Security advocate promoting system hardening and safe defaults.

▶ Peer mentor supporting team members with architectural reasoning.

▶ Technical writer simplifying complex systems into clear documentation.
